**Subject:** Directing Uber to cease and desist operations

To whom it may concern.

I am very disappointed and angry that the SC PSC has dared to order Uber to cease and desist operations!!! It clearly shows that you (who made that decision) really don't care about save, reliable and affordable "public Transportation!! we all know, there is no public transportation in SC to speak of! The taxi cabs clearly look like patched and welded up leftover police cars which no longer meet Traffic regulations...they just got a new coating of paint!

The only reliable and save available alternative to non or barely existing buss service or rundown Cabs was Uber, which you now directed to cease and desist operations,

This decision was wrong and you should reconsider and reverse it!

Regards,

WO

**Subject:** Uber

To whomever this may regard,

I am writing to you today in regards to the cease and desist order for Uber. I am a student at the College of Charleston and can directly attest to the improvement in my life as well as my peers attending the college. I (and anybody else you could ask) have had very negative experiences with the taxi services and do not give them my business. Uber in Charleston makes it possible for myself and all my friends to get a safe ride home after the sun goes down. Unreliable taxi drivers do not. It is simply not as safe of a city without having the option of calling an Uber. It also drastically reduces the need to drive under the influence. I do not take part in this action but so many people do, also contributing to the deterioration of safe Charleston streets for pedestrians and drivers alike. I urge you to at least look at the numbers- I would make an educated guess that 1) DUI rates are going down and 2) assault/battery/theft on the streets after dark are more scarce. Please reconsider this means of action for the safety of myself and my peers, and help the citizens of Charleston have an easy alternative to getting into a car with a drunk driver.

Thank you for your time,  
Courtlyn DeVries Jones

Subject: Uber

To whom this may concern,

Please keep Uber on the streets. Uber has made the lack of public transportation in Greenville obsolete. Uber is also much more reliable than taxis. Since Uber started in Greenville I have been much more willing to go out and stay out and "support the economy" knowing that I have a readily available form of safe transportation. The taxi service can take up to 1hr to get a ride during busy times and they request that you call ahead of time to schedule your pickup. I have also heard of less ppl drinking and driving knowing that this service is available quickly and safely. By directing Uber to cease and desist you are doing a disservice to the local economy and to the safety of those people who are on the streets because others could not hail a cab. Thank you for your time.

Thank You,  
Dr. Edward Zapf

**Subject:** Uber in SC!

Please reconsider the use of services like UBER in South Carolina. Residents really heavily upon this service and the boost to the economy is obvious.
